

R Gallery at Arlene's Key

The R Gallery at Arlene's is an intimate yet flexible exhibition space, well-suited for presenting a diverse range of artwork. Though modest in scale, the gallery offers generous wall space that allows for thoughtful and effective installations.

NOTE: Wall 1, located to the left upon entering the gallery, features two flat files on top of each other. The top of which houses our Flat File Program. To the right of the flat files is a desk. This configuration—outlined by dotted lines in the attached diagram—provides a dedicated hanging area above measuring 5' 7" high by 10' 1" wide. The accompanying diagram is intended as a visual reference for planning purposes and is not to scale. If you have any questions about the space or need assistance as you prepare for your exhibition, don't hesitate to reach out to Andrew Ochal at arlenesartist@gmail.com. We're here to support you in making your exhibition at the R Gallery a success.
